**Companies Providing Solutions to California WIC Any Authorized Vendor
As of February 14, 2011**

Bakersfield Cash Register, Inc.

Bob Harper

661-327-9361

bakcr@aol.com

The NCR Advanced Checkout Solution-Independent Retailer (ACS-IR) is a high-volume checkout solution designed for supermarkets and drug stores. ACS-IR now supports the California WIC Any Authorized Vendor (AAV) WIC requirements, by allowing retailers to electronically collect WIC voucher data for transmission to the state. We also support NCR ScanMaster and BASSpoint Point of Sale Systems and Back Office Systems including RBX, Merchant and MEI.

CKS Technologies

Chris Lazenby

818-597-2571

www.ckstech.com

CKS Technologies is offering three versions of solutions for grocers to process WIC payments with their EZProcess Pro. A standalone system, a PC based system and a complete point of sale system with AAV integration.

Droste Consultants, Inc.

Mike Mahoney

978-686-5775

mike@droste1.com

www.drostesoftware.com

Droste Consultants has been creating, delivering and integrating software solutions for the retail grocery industry since 1983. We have developed a software program for ISS45 users which filters transactions for WIC information, formats that information according to AAV requirements and allows retailers to automatically submit that information electronically.

EFT Network, Inc.

Bonnie Finley

800-492-2794 ext. 697

bonnief@redeposit.com

EFT Network has the ability to transmit WIC food instruments to the state of California with its patent pending Accounts Receivable Conversion / Check 21 solution for the Any Authorized Vendor program. Electronically Scan, Process and Send checks, it is that easy. No manual data entry is required. All WIC food instruments are viewable 24/7 via EFT Network's password protected web site.

**Companies Providing Solutions to California WIC Any Authorized Vendor
As of February 14, 2011**

InStore Technology, LLC
John Pollastro
206 709-0125 x2124
JP@InStoreTech.com
www.InStoreTech.com

InStore Technology is committed to providing the very finest equipment, professional services and technical support at affordable prices to grocers in Northern California and the Pacific Northwest. InStore provides comprehensive sales and service on ISS45, ScanMaster and other StoreNext grocery store solutions for independent grocers and California regional chains. Please call to discuss your California's WIC AAV requirements and InStore's solutions.

Kern Register
Mohamed Muthana
661-324-7226 / 661-978-9283
admin@kernregister.com

ScanSoftPOS is a complete POS System that incorporates the California AAV WIC requirements for transmitting FI numbers and provides two options of submitting the file. We also offer a stand alone system that only scans Food Instruments and generates the File for submission to the State. ScanCheck uses phone line, no internet required.

NCR Corporation
Rock Wight
770-623-7722
rock.wight@ncr.com

The NCR Advanced Checkout Solution (ACS) is a high-volume checkout solution designed for supermarkets and drug stores. The ACS solution can meet the needs of any retailer no matter how many stores they operate. ACS now supports the California WIC Any Authorized Vendor (AAV) WIC requirements, by allowing retailers to electronically collect WIC voucher data for transmission to the state.

Northwest Bank Technology
Ted Rudder
208-895-8778
tedr@rmci.net

Northwest Bank Technology is providing custom created software that use desktop scanning devices to capture MICR information as well as check or coupon images. Data input, balancing and reformat modules are also available. Text and images can be transmitted electronically to financial and government agencies for payment.
